

DAVID YUSUF

Software Engineering Student | Aspiring Full-Stack Developer

Phone: +234 816 368 6498 | Email: davidwithskills@gmail.com | GitHub: <https://github.com/davidwithskills>

PROFESSIONAL SUMMARY

Motivated Software Engineering undergraduate with hands-on experience in software development, web application development, UI/UX design, and robotics education. Skilled in developing interactive applications, designing user-centered interfaces, and building responsive web solutions. Passionate about creating innovative software products and continuously expanding technical expertise through practical projects and collaborative work environments.

EDUCATION

Bachelor of Science (B.Sc.) in Software Engineering

Lead City University, Ibadan, Nigeria | Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages: C++, Java, Python, JavaScript, TypeScript

Web Development: HTML, CSS, JavaScript, responsive interface development

UI/UX Design: Figma, wireframing, prototyping, user interface design

Tools: Git, GitHub, VS Code, Microsoft Office Suite

PROJECTS

- *SwiftShip* - Delivery and courier service web application built with HTML and JavaScript. Live: <https://davidwithskills.github.io/SwiftShip/>
- *Snake Game* - Interactive game project using Python and HTML with score tracking and gameplay logic. Live: <https://davidwithskills.github.io/Snake-Game/>
- *Digital Ludo Game* - Browser-based Ludo game built with TypeScript and CSS, focused on game logic and state management. Live: <https://davidwithskills.github.io/Ludo-Game/>
- *Online Speed Typing Game* - Practice-focused web game for improving typing speed and accuracy.
- *Username Generator* - Utility project for generating creative usernames.

PROFESSIONAL EXPERIENCE

UX/UI Designer - Fruitful Bough

- Designed user-friendly interfaces for digital products and web applications.
- Created wireframes, mockups, and interactive prototypes using Figma.

LEGO Mindstorms Robotics Trainer

- Trained students in robotics concepts using LEGO Mindstorms kits.
- Guided learners in robot construction, programming, and troubleshooting.

SOFT SKILLS

Problem Solving, Communication, Teamwork, Critical Thinking, Creativity, Time Management, Adaptability, Attention to Detail
